Please leave XM Radio alone. This is the best thing to happen to automobile radio since its invention. XM needs to expand its list of cities for which traffic and weather reports are given, not retracted. As an on-the-road salesman, I don't have the luxury of being able to find a local radio station or wait for them to tell me the traffic and weather info I need. XM gives it to me immediately on my demand, not the stations. I pay a monthly fee for this service. Why shouldn't I be able to have it? Reject NAB petition#04-160!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
